

Bench & Bloom — Request for quotation: retail boxes

Prepared: 6 September 2026 · **Document:** JATEL_BoxQuoteRequest_v1.0_20260906

Bench & Bloom · 3820 Partridge Rd, Naramata, BC V0H 1N1 hello@benchandbloom.com · 250.308.9449

We are a small lavender farm launching a 250 mL culinary syrup. We need quotes on **two retail boxes**, both **plain white with no printing**. Every dimension below is derived from the bottle in section 1, which is already purchased and in hand.

1. The item the boxes must fit

Bottle	Uline S-23397 , 8 oz clear Boston round glass
Body diameter	2.375 in / 60.3 mm
Overall height	5.437 in / 138.1 mm (cap on)
Neck finish	28-400, cap included and shipped attached
Empty weight	209 g with cap
Filled weight	540 g
Shape	Cylindrical body, rounded shoulder, short neck

A shrink band (Uline S-17668) sits over the cap and does not change the outside dimensions.

2. Box A — single bottle

Internal dimensions	2.500 × 2.500 × 5.625 in (63.5 × 63.5 × 142.9 mm)
Derivation	2.375 in bottle + 0.125 in diametral clearance; 5.437 in + 0.188 in over the cap
Contents	1 bottle, upright
Gross weight	~565 g
Style	Reverse or straight tuck end — closes without glue
Material	18–24 pt SBS, white both sides , uncoated or matte
Print	None
Finish	No gloss

Please quote internal dimensions. If you quote external, say so explicitly — a box built to 2.500 in *external* will not accept the bottle.

Also price the nearest stock size if you hold one. A 3 × 3 × 6 in internal carton fits with 0.625 in of slack. If stock is materially cheaper than custom we will take the slack.

3. Box B — three bottles

Two arrangements. **Please quote both**; we have no preference beyond delivered cost.

B1 · Row of three

Internal dimensions	7.250 × 2.500 × 5.625 in (184 × 63.5 × 143 mm)
Footprint / volume	18.1 sq in · 102 cu in
Divider	Required — 2-slot, to keep glass from touching glass

B2 · Triangle (bottles nested, no divider)

Internal dimensions	4.875 × 4.557 × 5.625 in (124 × 116 × 143 mm)
Square-box variant	5.0 × 5.0 × 5.75 in internal, easier to source
Footprint / volume	22.2 sq in · 125 cu in
Divider	Not required — three touching cylinders self-locate

The trade-off, stated plainly. The row uses **18% less board volume** but needs a divider and is 7.25 in long. The triangle needs no divider and is closer to a cube, but uses more material. *Which is cheaper delivered depends on your divider cost and your sheet yield, which is why we are asking you rather than guessing.*

	Both B1 and B2
Contents	3 bottles, upright
Gross weight	~1,715 g
Style	Tuck end, or two-piece lid and base if that prices better
Material	White, rigid enough to protect glass . Please advise: SBS paperboard, or E- or B-flute corrugated
Print	None
Finish	No gloss

4. Quantities

Pilot run is 48 bottles: **48 singles and 16 three-packs**. That is below any sensible minimum, so please quote at the break points instead:

	Box A (single)	Box B (three-pack)
Quote at	100 / 250 / 500	50 / 100 / 250
Dividers (B1 only)	—	same quantities

Please state your **minimum order quantity** for each. If a custom size carries a die charge, quote it separately so we can compare it against a stock size.

5. Delivery and timing

- **Ship to:** Naramata, BC **V0H 1N1**
 - **Needed by:** first production run, autumn 2026. Not urgent, but please state **lead time** from artwork or purchase order.
 - Quote **delivered**, including freight to a BC interior address.
-

6. Please include in your quote

1. Unit price at each quantity, and the **minimum order quantity**
 2. Whether the dimensions you quote are **internal or external**
 3. **Board or caliper spec** you propose, and your recommendation for protecting glass
 4. **Die or setup charges**, if any, separately from unit price
 5. **Lead time** and **freight** to V0H 1N1
 6. Whether a **stock size** exists close to these dimensions, and its price
 7. For B1, the **divider** as a separate line
 8. Any **recycled content or FSC** certification, and whether it costs extra
-

7. What we are not asking for

To save you time: **no printing, no foil, no embossing, no windows, no custom colour**. Branding is carried by a separate applied label. We are not looking to be upsold on decoration; we are looking for the cheapest box that protects a 540 g glass bottle and looks clean and white.

Thank you. Please send your quote to hello@benchandbloom.com, or call **250.308.9449** with any question about the bottle or the dimensions. We are happy to send a sample bottle if that helps you quote accurately.
